### Symptoms of coronavirus(covid-19)

A middle-aged man with a bald head and a white t-shirt is shown from the chest up. He is coughing into his right elbow, with his hand partially covering his mouth. The background is a plain, light gray. A 'gettyimages' watermark is visible on the right side of the image.

Most common symptoms found are:

- fever.
- dry cough.
- tiredness.

Less common symptoms found are:

- aches and pains.
- sore throat.
- diarrhoea.
- conjunctivitis.
- headache.
- loss of taste or smell.
- a rash on skin, or discolouration of fingers or toes.

Serious symptoms

- difficulty breathing or shortness of breath.
- chest pain or pressure.
- loss of speech or movement.

### Ways to prevent coronavirus(covid-19)

To prevent infection and to slow transmission of COVID-19, do the following:

- Wash your hands regularly with soap and water, or clean them with alcohol-based hand rub.
- Maintain at least 1 metre distance between you and people coughing or sneezing.
- Avoid touching your face.
- Cover your mouth and nose when coughing or sneezing.
- Stay home if you feel unwell.
- Refrain from smoking and other activities that weaken the lungs.
- Practice physical distancing by avoiding unnecessary travel and staying away from large groups of people.
